INNOVATION WITH IMPACT

CONTINUOUSLY RAISING THE BAR

In this disruptive era, technology continuously changes how businesses operate. YE emerges as a technology innovation partner that helps clients not just keep up with changes, but lead the transformation. With a visionary approach and agile execution, we ensure that every solution built not only addresses today's needs but is also ready to face future challenges.

A FEW WORDS FROM THE CEO

"In a world obsessed with optimization, the differentiator is vision. Others can copy your product, but they cannot copy your vision of the future. Your task is to build the bridge from today to that vision." — **Elon Musk**, CEO, Tesla and SpaceX

In a short period, YE has successfully completed 38+ projects for 26+ clients from 14+ industrial sectors. We are proud to have been trusted by government institutions, state-owned enterprises, leading corporations, and innovative startups alike.

VISION

To become the partner of choice for transformative IT consulting and solutions in the regional landscape.

MISSION

We are commited to:

- **Understanding**
  Understanding unique client needs to deliver unmatched value.
- **Empowering**
  Empowering our team to thrive in a dynamic and supportive environment.
- **Driving**
  Driving sustainable growth and maximizing value for stakeholders.

BELIEFS

Impactful Innovation

Collaborative Integrity

Continuous Evolution

Strength in Diversity

VISION INNOVATED TRANSFORMED

We recognize that accelerating digital transformation has become a primary need across all sectors. Through YE's core services, we help businesses not only adapt but also lead change with scalable, secure, and future-proof technology solutions.

DIGITAL TRANSFORMATION SOLUTIONS

We provide end-to-end services covering strategic consulting, application development, system integration, to managed services. With an agile approach, we ensure every project is completed on time and in line with client business expectations.

MEANINGFUL INNOVATION

We don't just build technology; we create impact. Every solution is designed to optimize processes, enhance user experience, and drive sustainable business growth.

Transforming Vision, with Every Line of Code

OUR BELIEFS

We believe that the right technology can turn vision into reality. With integrity, collaboration, and a commitment to continuous evolution, we ensure every line of code written adds value for clients and society.

1

Impactful Innovation

We innovate from Insight—understanding each client's unique needs—then Empowering time for purposeful experimentation, and Driving measurable results for the business. Each solution aims to create real, scalable, and relevant impact across the regional landscape.

2

Collaborative Integrity

Being a partner of choice requires honest and transparent collaboration. We listen with empathy (Understanding), create a safe space for teams and clients to share perspectives (Empowering), and deliver on our commitment to driving long-term value (Driving).
.

3

Continuous Evolution

We learn continuously: evaluating, adapting, and refining processes and technology with every engagement. By empowering teams to grow and driving continuous improvement, we maintain relevance and readiness to face regional dynamics.

4

Strength in Diversity

Our diverse backgrounds, expertise, and cultures enrich our understanding of client needs across diverse markets. We empower every individual to contribute fully, resulting in sharper decisions and maximum value for all stakeholders.

Vision-Innovated 360°

We deliver end-to-end solutions covering all stages of digital transformation: from strategy, development, integration, to ongoing support. With a structured and agile-based approach, we ensure every solution is reliable and easily scalable.

Vision-Innovated AGILE 360°

We have built Future-Proof 360° as an end-to-end solution that enables you to simply tell us what you need and let us do the rest.

Our extensive & diverse global team can help you throughout or in each phase of Development, Support & Enhancement with the aim to Always Raising the Bar.

With Vision-innovated 360°, we guarantee on-time SLA delivery and fast development with the help of our agile, significant & scalable engineering resources.

Vision-Innovated TECH INTEGRATION

Perpetually keeping ahead of technology is essential in Vision Innovated Transofrmation. We are proud to be the official partners of the world leaders in enterprise digital solutions.

OUR SERVICES

- Agile Development
- Managed Services
- Technical Writing
- Project-Based
- Design Services
- Quality Assurance

PUPR
MINISTRY

YE provides solutions for Package Auction Monitoring System, IKN competition platform, IKN space calculation system, foreign grant loan system
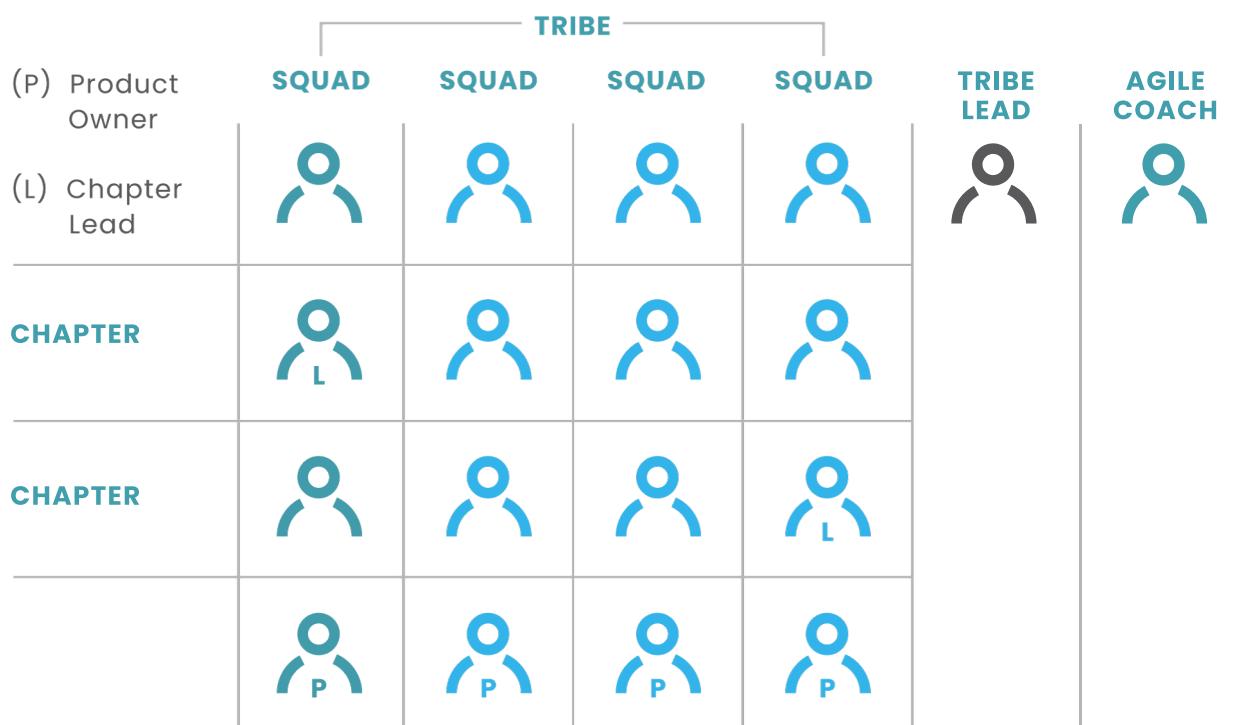

Kemendagri MINISTRY

YE provides solutions for non-permanent population registration systems, i-office platforms, inter-regional communication systems

A pioneer in Agile Delivery, we offer two engagement models:

EXTENDED TEAM

- Managed by client

- Based on timesheet

- Bill every 20 days of work or end of month

- YE provides the PM and QA

- Sprint-based 2-4 week cycles

- Bill based on timesheet every two sprints

- Sprint performance to be tracked

- Scale-up with 1-2 month notice

FULL SQUAD

In Agile Delivery, WGS will provide agile development squads adjusted to your requirement.

TRIBE is a collection of squads focused on executing projects efficiently and delivering high-quality solutions. This tribe ensures timelines, quality standards, and client expectations are met through structured workflows, continuous monitoring, and cross-team collaboration.

SQUAD is an agile organization that consists of representatives of different functions working as a team in a single location. Can change functional composition as the mission evolves.

CHAPTER develops expertise and knowledge across the squad PRODUCT OWNER the one responsible for providing backlog.
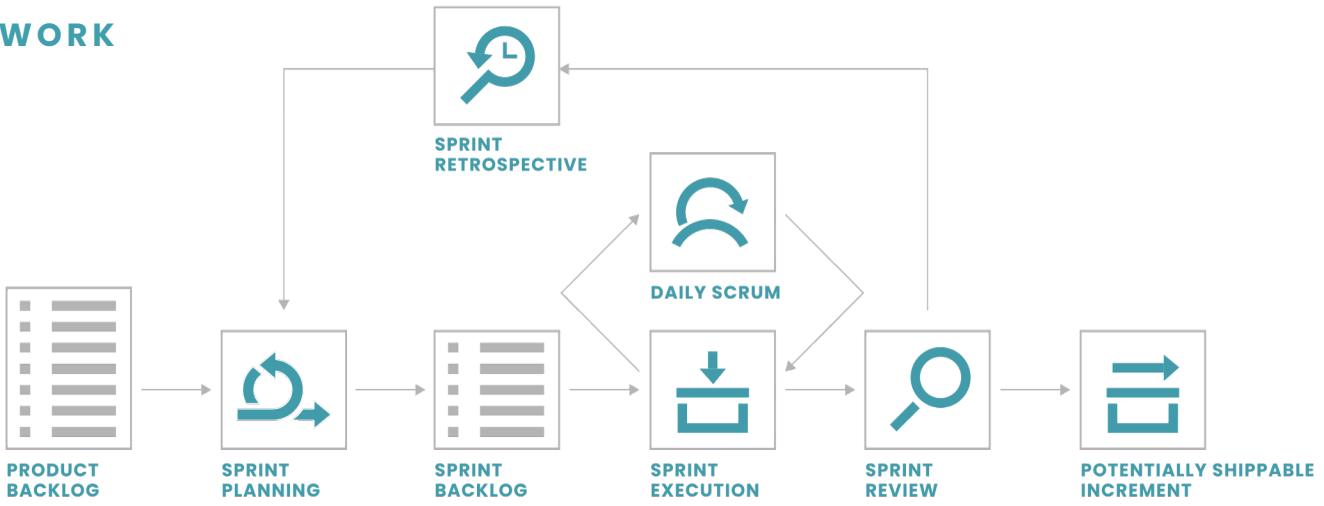

AGILE DEVELOPMENT

YE AGILE SQUAD ON A TRIBE WILL CONSIST OF:

- **SCRUM MASTER** is the one that facilitates, managing exchange of information between members

- **PROJECT COORDINATOR** is the one that responsible for preparing the product backlog.

- **DEVTEAM** consists ofd evelopers that required in working on backlog made by the Product Owner.

- **SPRINT PLANNING** is an event where the team determines the product backlog items they will work on during that sprint and discusses their initial plan for completing them.

- **DAILY SCRUM/STANDUP** is a 15-min event for the Dev Team to synchronize activities and create a plan for the next 24hours.

- **SPRINT REVIEW** is held at the end of the sprint to inspect the Increment and adapt the Product Backlog if needed.

HOW WE WORK

SPRINT RETROSPECTIVE

DAILY SCRUM

PRODUCT BACKLOG → SPRINT PLANNING → SPRINT BACKLOG → SPRINT EXECUTION → SPRINT REVIEW → POTENTIALLY SHIPPABLE INCREMENT

CONSULTING

YE provides strategic IT consulting to help businesses align technology with their goals. We work closely with clients to analyze challenges, identify opportunities, and design effective digital strategies. Our consulting services cover system architecture, digital transformation, technology roadmap planning, and process optimization to ensure sustainable growth and long-term efficiency.

MANAGED SERVICES

VISION INOVATED
TECH INNOVATION

Connecting Cutting Edge Technology

Perpetually keeping ahead of technology is essential in Vision Innovation.

There are eight core categories of System Integration that we provide:

1. STRATEGY

We have proven experience in helping people from investing in their digital transformation, scaling them thorough our technology & financyal ecosystem and eventually exiting through IPO & M&A. Everyone now have the chance to strike big

2. TALENTS

Corporate Training Solutions for tech-related skills is one of our fortes at YE. We have helped train professionals into world-class tech talent. Moreover, we have worked with various companies with their CSR to offer free training for under privileged youth. It surely is a commitment beyond profit.

3. INFRA

We work with both AWS and IBM Cloud to deliver Infrastructure-as-a-Service, including their advanced offerings such as IBM Watson. In addition, YE is launching its own mobile data center,allowing remote areas to installs mall data centers very quickly and with ease.

4. MACHINE LEARNING

We work with clients to deliver custom applications with AI and Machine Learning. For example, we can forecast certain trends based on available data and work with customers to deliver projects with Natural Language Processing models at the core.

5. ENTERPRISE SOLUTION

ERP, including CRM and HRIS, is core to acompany s Good Corporate Governance, not to mention the improved productivity and efficiency the tools can bring. YE works with WORKSUITE, Microsoft, ASG, and Hubspot to deliver these backend Enterprise solutions.

6. CUSTOMER EXPERIENCE

To disruptor create market, your company needs to have a consumer-facing web application & mobility strategy. From initial brand guideline, UI/UX, MVP development with continuous enhancement, YE have brought to life numerous corporate-backed apps and startups alike.

7. CYBER SECURITY

Leveraging our expertise, we can provide a holistic range of cyber security needs; from penetration testing, security score card, identity management, compliance assessment, to managed security services 24x7.

8. INTERNET OF THINGS

Smart device for retail and office environment. process automation and edge computing. WGS distributes hardware from reliable manufacturers and delivers customized applications for your IoT needs.

PT. Perkebunan Sumatera Utara
BUMN

TECH INNOVATION PARTNER

OUR IMPACT

SUCCESS STORIES

MINISTRY OF PUBLIC WORKS AND HOUSING (PUPR)

IKN Building Calculation System

YE successfully built a system for monitoring work package auctions and an IKN competition platform, enhancing transparency and efficiency in the procurement process.

MINISTRY OF HOME AFFAIRS (KEMENDAGRI)

Interregional Communication App

Solutions for non-permanent resident registration and the i-office platform helped accelerate public services and inter-regional communication.

ASTRA HONDA MOTOR

Inventory Management System

Integrated inventory and accounting systems supported more accurate and real-time logistics and financial operations.

HM SAMPOERNA (AYO SRC)

AYO SRC CASHIER, AYO SRC TOKO Mobile Application

AYO SRC Cashier & AYO SRC Toko project was created by Yada Ekidanta to transform the way small and medium-sized retailers in Indonesia run their business.

STATE INTELLIGENCE AGENCY (BIN)

Psychologist Analysis Platform

Psychologist Analysis Platform is a secure and integrated digital solution developed to support the analytical needs of the Indonesian State Intelligence Agency (BIN) in managing and evaluating psychological assessment data.

National Nutrition Agency (BGN)

AI Counting Food Tray

AI Counting Food Tray is an intelligent monitoring system developed to support the National Nutrition Agency in accurately counting and tracking food tray distribution within nutrition programs.

PT. Perkebunan Sumatera Utara

E-Procurement

The project aimed to develop an E-Procurement Platform to streamline the procurement process of PT Perkebunan Sumatera Utara. The platform is designed to improve the efficiency of the procurement process and ensure a transparent and competitive bidding process for suppliers.

THE ART OF EXCELLENCE

Excellence is shaped in the finest details.

where precision is repeated until it becomes effortless. It is the quiet discipline of giving more than what's required, consistently, without compromise. A culture that refines what exists, transforms it into innovation, and delivers a breakthrough that feels inevitable.

Excellence grows from the patience to refine continuously.

even when progress seems invisible. It emerges from the courage to revisit, improve, and elevate every layer of the process. It is a commitment that demands persistence—delivering quality not only at the final outcome, but in every step that shapes it—until the work is not merely completed, but worthy of being called exceptional.

Transforming Vision, with Every Line of Code
